EEReed Construction LP Selects Genesis Security Systems For Northern Virginia Project

Genesis Security Systems LLC of Germantown Maryland is pleased to announce that they have been selected by EEReed Construction LP to provide a substantial integrated security system for an undisclosed tenant in Northern Virginia. As

EER **REED**
CONSTRUCTION, L.P.

part of this project, Genesis will be integrating a hot redundant Software House system with proximity readers, a digital video management system, digital photo-Identification, optical turnstiles and high-security intrusion detection systems. The system will also meet UL2050 requirements, with certificates being issued by Genesis.

According to EEReed, "Genesis was selected because of their track record of customer service before, during and after the installation. This was supported by their long list of clients and strong references."

According to Alan Kruglak, Senior Vice President at Genesis, "This is a very exciting project. We have assembled a great team, and are on the way to meeting the client's tight deadline requirements. The onsite project manager for this project is Steve Matisans. Although Steve is a new member of the Genesis team, he has his deep roots with GIC Security, and understands the Genesis culture and our strong focus on customer service. We are extremely pleased to have this level of talent on our team."

For more information about Genesis Security Systems and our capabilities and services, please contact Alan Kruglak at 301-515-4400 or akruglak@gensecsystems.com.
